

# Your AI Readiness Report

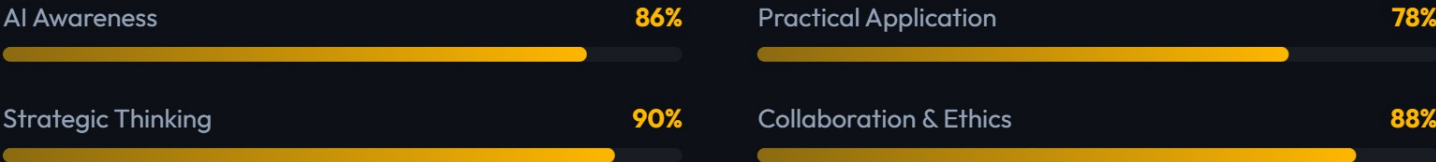

Group CEO

Assessment Date: 20 July 2026 · Powered by Claude AI

## The AI Visionary

Confidence **82%**

### • READINESS DIMENSIONS

#### 📁 AI ASSESSMENT NARRATIVE

As Group CEO, you're positioned at the pivotal intersection of AI awareness and transformational leadership. Your motivation to lead TM's evolution into an AI-first organization, coupled with your strategic mindset and exploratory learning approach, shows you understand that visionary leadership requires both inspiration and informed perspective. Your willingness to explore AI tools personally demonstrates the curiosity needed to authentically champion enterprise-wide AI transformation.

#### 📈 AI REASONING

Despite mixed technical signals in Q1-Q2, the employee's role as Group CEO combined with their motivations in Q4 ('Leading TM's transformation into an AI-first organization') and strategic orientation in Q3 clearly points to a visionary profile. The occasional exploration of AI tools and self-paced learning suggest they're building foundational awareness to inform high-level direction, which is appropriate for their executive position where shaping organizational transformation takes precedence over technical implementation.

### • KEY STRENGTHS

- ✓ Enterprise AI transformation
- ✓ Executive championing
- ✓ Cross-functional orchestration
- ✓ Long-horizon AI roadmapping

### • GROWTH AREAS

- Deep technical AI literacy
- Rapid hands-on prototyping

### • RECOMMENDED LEARNING PATHWAY — tailored for The AI Visionary

#### 1 Executive AI Leadership Programme (MIT Sloan or INSEAD)

This will equip you with frameworks to articulate AI vision, navigate ethical considerations, and lead board-level AI governance discussions specific to telecommunications transformation.

#### 2 AI Strategy Roundtables with Regional Telco CEOs

Peer learning with executives from Singtel, Axiata, and other regional leaders will provide benchmarking insights and strategic patterns for positioning TM as an AI-first regional champion.

3

### Internal 'AI Moonshot' Innovation Challenges

Sponsoring cross-functional teams to propose breakthrough AI initiatives will help you identify internal talent, surface transformative ideas, and demonstrate visible commitment to cultural change from the top.
